

## **New Download Area**

Wednesday, 04 February 2009 17:22

---

Today we have launched the new download area for all our public releases of statistics, market data, presentations and company files. It is available by selecting "News and Data/Data Downloads" menu item from the top menu of the site. The information is structured into several categories.

The 2008 cellular subscriber statistics for Russia and Ukraine is available as of today and we'll add more historical information within a few days. Please check back for updated information.
