

AC&M representatives will participate in the 10th annual Caspian Telecoms conference in Istanbul. AC&M Senior Analyst Dmitry Yaremenko will speak at “IP-transit market development in Caucasus Region” round table on April 29th and act as a moderator for the panel discussion.

[Caspian Telecoms Conference](#) is the only event for the telecoms industry for Turkey, CIS, the Black Sea States and their neighbouring Caspian and Central Asian regions. The event has grown steadily over last years and has now become an essential meeting point for many professionals in the telecoms industry. The Caspian & Black Sea Telecoms Conference & Showcase acts as an international gateway into a market that offers huge potential for both established investors and new market entrants.
